

Bribie Island Bridge Upgrade

October 2026

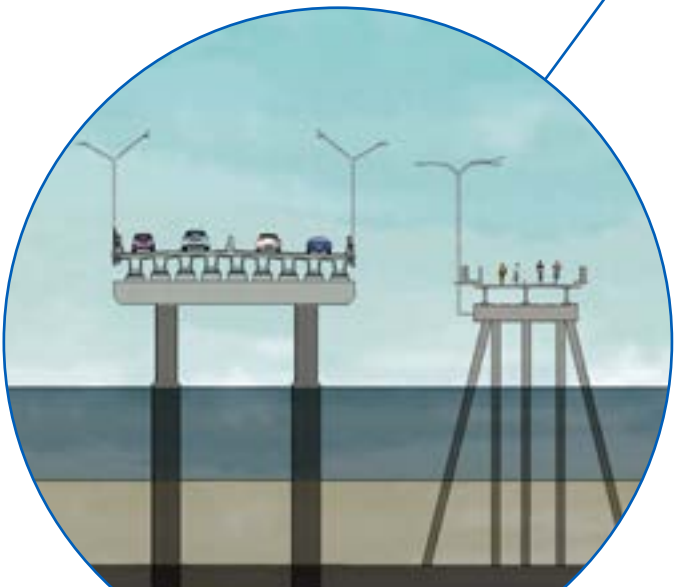

This design layout is subject to further development as design progresses

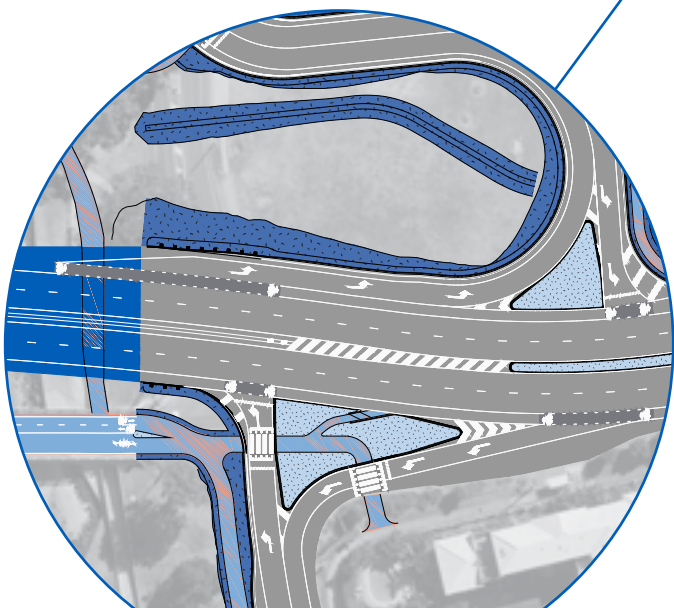

Traffic signals with pedestrian crossings at Sandstone Point Hotel access. Traffic can transfer between bridges at this intersection if diversion is required during incidents, emergencies or maintenance

Caboolture-Bribie Island Road: Eastbound - two through lanes and longer storage for dedicated right-turn lane to Sandstone Point Hotel. Westbound - two through lanes and a dedicated left-turn lane to Sandstone Point Hotel

New bridge is up to 4m higher than the existing bridge at its highest point (near mid-channel). Pelican perches will overhang the water

Pedestrian facility improvements will be investigated during the design stage

Project benefits

- Improved safety
- Improved reliability
- Improved resilience
- Improved emergency access
- Improved active transport connections
- Supports future growth

Legend

- New bridge
- Pavement
- Active transport path
- Concrete median/island
- Turf
- Traffic signals
- Navigation channel
- Landscaped median/island
