Update on Goldmine Road upgrade

Dear Resident,

Goldmine Road is being upgraded to improve traffic flow, safety and access for the Ormeau community. As construction progresses, traffic arrangements will change to allow the next stage of works to be completed safely.

What's changing?

To safely complete critical works under the rail bridge, a single-lane closure will be in place 24 hours a day, seven days a week from 2 November 2026 until late January 2027.

A recent trial showed that there will be some minor impacts to travel time as a result of a single-lane closure, particularly during busier morning periods.

Keeping a single-lane closure in place during peak periods will allow more work to be completed safely each day, helping us **finish the upgrade sooner** and **reduce overall disruption** for the community.

How will this impact me?

Motorists are encouraged to allow extra travel time on Goldmine Road during morning and afternoon peak times.

There may be temporary changes to how motorists access local roads near the works area. Advance notice will be provided.

We know Goldmine Road is also an important connection for the **local school community**.

Travel from the Lahrs Road and Goldmine Road intersection to Ormeau Woods State High School and back may take longer during school peak times (approximately 8:10am to 8:40am and 2:15pm to 2:45pm). Delays of up to 8 minutes may occur; however, travel times will vary depending on traffic conditions. Please allow extra travel time.

What to expect

During construction you will notice workers and machinery generating some noise, vibration and dust, with controls in place to minimise impacts.

There will also be temporary reduced speed limits and traffic controllers through the work area. Temporary automated traffic signals will operate outside of work hours, including on Sundays.

We thank you for your patience and understanding while these essential works are underway.

Works are on track for completion in 2027, and we will continue to provide updates as the project progresses.
