Queensland Train Manufacturing Program

Community notice: January 2026

Upcoming works for Goldmine Road upgrade

Dear Resident,

From mid-February 2026, early works will start to prepare for the Goldmine Road upgrade. Construction for the upgrade is expected to start in March 2026 and take approximately 14 months to complete.

Goldmine Road is being upgraded to improve traffic flow, safety and access for the Ormeau community.

Phase 1: Early works *(from mid-February)*

- Establishing site offices and storage areas within the rail facility.
- Relocating some underground utilities, including telecommunications services.
- Removing some roadside vegetation.

Phase 2: Construction works *(from early March)*

- Upgrading bus stops and driveways.
- Building new and improved footpaths and local roads.
- Improving the drainage to help reduce flooding.
- Building a new signalised intersection at the Ormeau rail facility entrance on Goldmine Road.

How will this impact me?

During construction, you will notice:

- workers and machinery generating some noise, vibration and dust, with controls in place to minimise impacts (Phase 1 and 2)
- temporary reduced speed limits and single-lane closures through the work area, with traffic controllers in place (Phase 2)
- temporary closure or relocation of four existing bus stops along Goldmine Road (Phase 2).
- Details about these bus stops will be shared with the community before this work begins.

The standard work hours are Monday to Saturday, 6am to 6pm. At times, night works may be required and nearby residents and businesses will be notified in advance.

More impactful works will be scheduled outside of peak school drop-off and pick-up times where possible.

All scheduled works are dependent on weather and construction conditions. Goldmine Road is an important connection for the local community and we're committed to minimising disruption wherever possible.

We thank you for your patience while we complete these essential works.

About the upgrade

This upgrade is being delivered by the Department of Transport and Main Roads (TMR) in partnership with the City of Gold Coast.

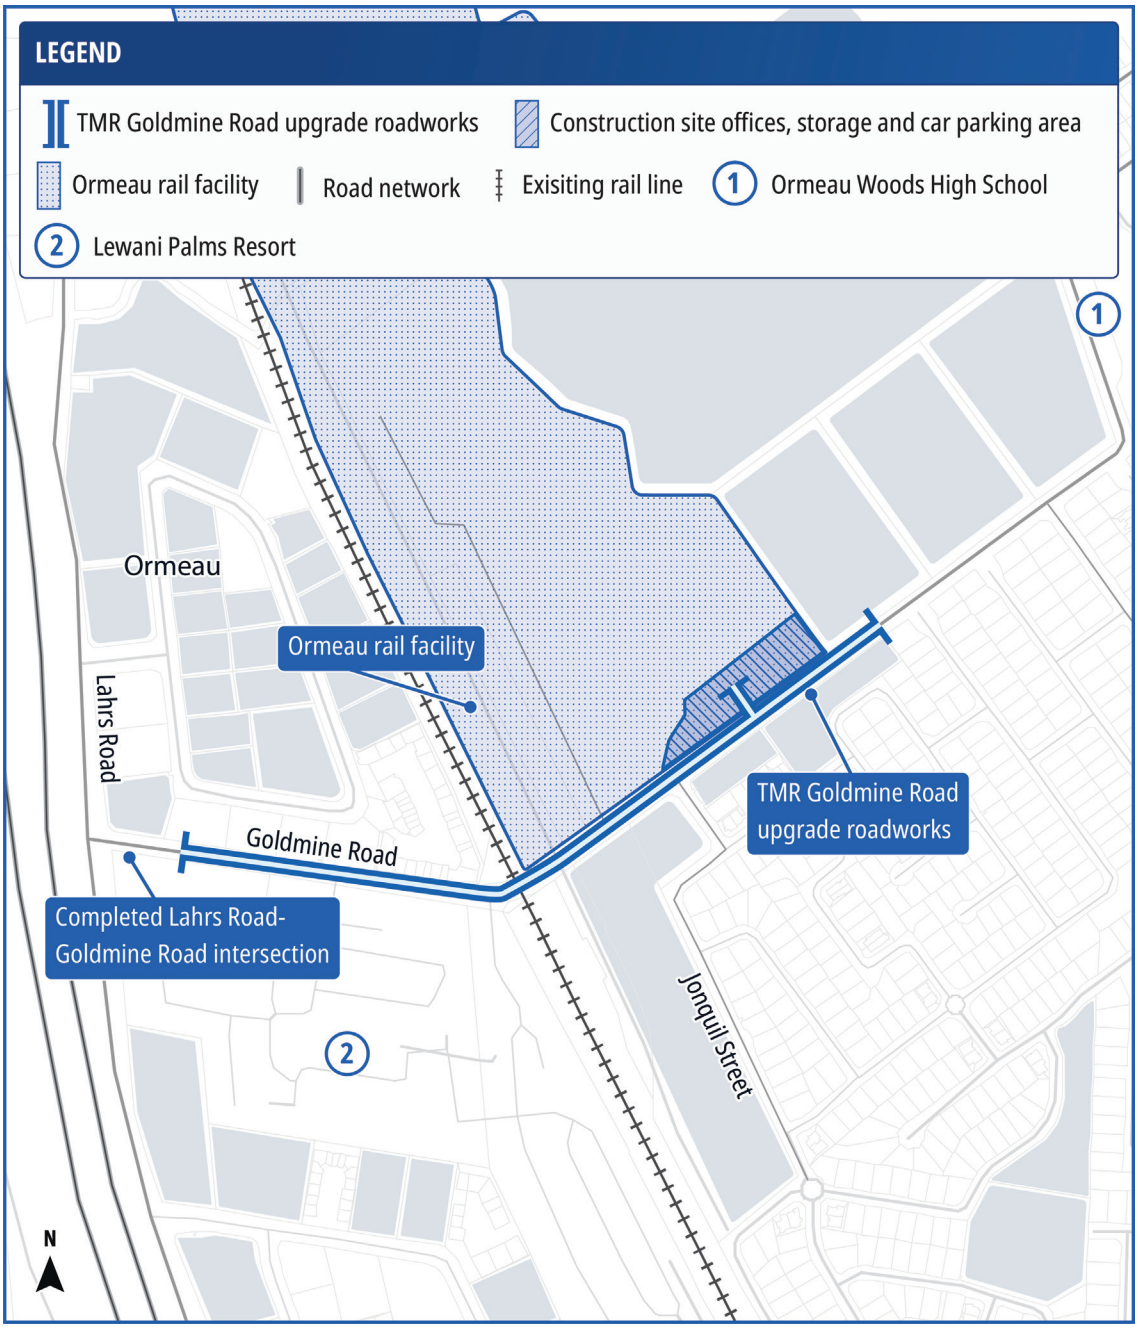

DELIVERING FOR QUEENSLAND | Queensland Government

Did you know?

We have also started local water and sewerage connection works near Goldmine Road and Jonquil Street.
