6 Challenge question!

Can you name two stations that will be upgraded as part of the Logan and Gold Coast Faster Rail project?

Go to the project web page to find the answer:
www.tmr.qld.gov.au/logangoldcoastrail

The **Logan and Gold Coast Faster Rail** project will improve train travel between Kuraby and Beenleigh. The project will upgrade a 20km section of railway by increasing the number of tracks from two to four. This means more trains can run and services will be more regular and reliable.

The project will also:

- upgrade nine stations to make them safer and easier to use
- remove five level crossings to improve safety
- add better walking and cycling paths to help people reach stations
- improve local roads to better connect communities.
